

Amendments to the Claims:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Previously Presented) A front end part of an engine hood of a vehicle, the front end part being made of a deformable plastics material, comprising: means for fixing said front end part to the engine hood so as to extend the engine hood towards the front of the vehicle, in such a manner that said front end part accompanies the engine hood when it is opened, and integrating at least a portion of front light units of the vehicle.

2. (Previously Presented) A front end part according to claim 1, wherein the front end part forms at least a part of a shield of the vehicle.

3. (Canceled)

4. (Previously Presented) A front end part according to claim 1, wherein the front end part includes a strength member forming the means for fixing the front end part to the hood.

5. (Currently Amended) A front end part ~~according to claim 4~~ of an engine hood of a vehicle, the front end part being made of a deformable plastics material, comprising:
means for fixing the front end part to the engine hood so as to extend the engine hood towards the front of the vehicle, in such a manner that the front end part accompanies the engine hood when it is opened, and integrating at least a portion of front light units of the vehicle,
wherein the front end part includes a strength member forming the means for fixing the front end part to the hood, and
wherein the strength member forms a support for at least a portion of the front light units of the vehicle.

6. (Currently Amended) A front end part ~~according to claim 4~~ of an engine hood of a vehicle, the front end part being made of a deformable plastics material, comprising:
_____ means for fixing the front end part to the engine hood so as to extend the engine hood towards the front of the vehicle, in such a manner that the front end part accompanies the engine hood when it is opened, and integrating at least a portion of front light units of the vehicle, and
_____ wherein the front end part includes a strength member forming the means for fixing the front end part to the hood, and
_____ wherein the strength member includes an impact absorber.

7. (Previously Presented) A front end part according to claim 1, wherein the front end part includes an air intake forming at least a portion of a radiator grille.

8. (Previously Presented) A motor vehicle front face including a hood, a bumper, and a front end part according to claim 1.

9. (Previously Presented) A front face according to claim 8, wherein said front end part forms at least a portion of a shield of the bumper.

10. (Previously Presented) A front face according to claim 9, wherein the bumper includes a spoiler disposed beneath the front end part, and in that slamming clearance is provided between the end part and the spoiler.
